Rich,
Here is the e-mail I received from TetraTech regarding access to the Map Portal. Would you be able to send him an e-mail granting your permission for me to access the files.
Thanks,

Subject: Tetra Tech Map Portal Request

Hey Suddha, long time no see. I m looking at your request for access to the Tetra Tech Map Portal and wanted to see if you needed access for a specific project or if you were just checking things out? We are in the process of adding some basic non-client/non-secured viewers for demonstration purposes however, all the viewers we currently have in the Map Portal are client specific and therefore secured. Let me know and if you want to check out how it works we can setup a quick call to take a look at them. Hope all is well.

Thanks,
